Support Escalation Engineer – Networking and Active Directory

<https://www.linkedin.com/in/himanshu4186/>

PROFESSIONAL SUMMARY

Support Escalation Engineer with ~5 years of experience supporting enterprise-scale *Networking and Active Directory*, specializing in deep technical troubleshooting and escalation management. Proven expertise across *Windows Networking, Security, Virtual Networks, and Active Directory*. Leads CRIT/Sev-1 production incidents with end-to-end ownership, setting clear expectations and collaborating with Engineering/Product, and global support teams to drive issues to resolution. Demonstrates a strong learning and growth mindset, delivering consistent outcomes while actively investing in advanced debugging and code review proficiency.

AREAS OF EXPERTISE/TECHNICAL PROFICIENCIES

Enterprise Networking	- TCP/IP and Networking Protocols - DNS, DHCP configuration and Administration. - HTTP/HTTPS, Proxies, WFP/Firewalls - Windows Filesystems (SMB, DFS-N, CSC, Branch Cache) - VLANs, Trunking, Routing (OSPF, EIGRP, RIP, Static)
Active Directory and Security	- Active Directory – ADDS, LDAP, GPO, Replication - Kerberos and NTLM 802.1X/Wireless Network Authentication and Configuration - Certificates & PKI, TLS/SSL, Encryption - MFA, RADIUS/NPS, EAP
Infrastructure, Virtualization & Operating Systems	- Windows APIs and Networking stack (AFD.sys, TCPIP.sys, NDIS.sys) - Assembly Language Fundamentals - Windows Internals & advanced diagnostics/troubleshooting - Hyper-V & Host Networking (HNV, SET, LBFO, LACP) - Software Defined Networks with Network Controller
Diagnostics & Engineering Tools	- Packet capture & protocol analysis (Wireshark and Netmon) - Procmon, SysInternals and WPR - Netsh, ETL tracing and TCPIP Analysis - Code reading/writing in C - Python and R Programming
Professional Strengths	- Cross-functional collaboration - Critical/SEV1 Incident Management, RCA and Documentation - Clear technical communication and Self-starter, initiative-driven execution

PROFESSIONAL EXPERIENCE

Support Escalation Engineer – Windows Networking - Microsoft

JULY 2025 to Present

- Act as a Tier-3 Escalation Engineer, providing deep technical expertise on complex, high-impact Windows Networking and Active Directory issues.
- Lead CRIT/Sev-1 escalations with end-to-end ownership, proactively engaging Engineering to resolve issues and build customer trust.
- Perform **deep packet-level and stack-level troubleshooting** across TCP/IP, DNS, VPN, routing, wireless authentication, and hybrid network architectures.
- Lead and actively contribute to case bashes, case reviews, and proactive technical syncs with aligned engineers to improve case quality and resolution efficiency.
- Lead SME accreditations and contributing to hiring and technical evaluation efforts for the Win NET team.
- Mentor engineers and drive technical enablement initiatives, including SME readiness, escalation reviews, and technical training sessions.
- Presented an Agentic AI adoption strategy to senior leadership (CVP level).

Support Engineer – Windows Networking - Microsoft**SEPT 2021 to JUNE 2025**

- Supported enterprise customers with mission-critical networking and Active Directory incidents.
- Led critical production outages (Sev-1) impacting large enterprise environments.
- Troubleshoot enterprise networking environments including TCP/IP, routing, DNS, DHCP, VPN/IPSec, wireless authentication, and virtual networks.
- Conducted advanced network diagnostics using packet captures, ETL traces, and system instrumentation tools.
- Worked closely with engineering teams to escalate product defects and validate product fixes.
- Authored technical troubleshooting documentation and best-practice guides for internal and external knowledge bases.
- Achieved 7 SME accreditations across multiple technologies.
- Recognized for exceptional customer advocacy and communication, maintaining CSAT above 4.95

Support Engineer Intern - Microsoft**APR 2021 to JUL 2021**

- Gained hands-on experience with Windows Networking, Active Directory, and Azure Fundamentals.
- Built foundational skills in Enterprise Troubleshooting and Customer Communication and Documentation.
- Gained insights into Diagnostics and Windows performance tools and optimization.

EDUCATION

MSc Data Science - Online	Manipal Academy of Higher Education	2026	9.20 - Ongoing
Bachelor of Engineering (Hons in cloud computing)	Chandigarh University	2021	8.70
Higher Secondary Education	DAV Public School	2017	9.20

CERTIFICATIONS

Microsoft AI Fundamentals (AI 900)	2024
Microsoft AI Associate (AI 102)	2025
Microsoft Azure Fundamentals (AZ 900)	2025
Microsoft Data Fundamentals (DP 900)	2025
Software Defined Networking – QA Ltd	2025

INTEREST AREAS

- Enterprise Networking and Security
- Load Balancing & Secure Application Delivery
- Wireless Networks
- Distributed Systems and Data Science
